

A SORT OF ADVENTURE

How silly of two elderly ladies to go off the track of the Roy Henderson Track and get themselves completely lost! Fortunately, one of them had their phone on them and was able to call for help. Nevertheless, it took quite a while to locate both ladies which involved many toots of the car horn and even more coo-ees. But fortunately, there was a happy ending for both the ladies concerned, as both were found - eventually.

Now for some much better news. The Pizza people are returning at the same time this Wednesday. They felt sorry for all the people who missed out last Wednesday, because they sold out, so if that was you, get down there nice and early so that you do not miss out again.

This is a call-out to anybody who is interested in sharing their ideas, to come along to a meeting and help decide on an artistic theme for the town to use to revamp the Decorative Surfboards, which are definitely showing their age and looking a bit worse for wear. This theme will also be applied to proposed interpretive signs around town and a proposed information board opposite the general store in the park, plus revamping the "Welcome Sign" on Telopea Drive as you come into town. This meeting will take place on Saturday July 25th at 10.30am in the Community Centre. All are welcome, and should more turn up than allowed in the Centre as per current health regulations then we can always open the doors to the outside at either end so people can then hear and see what is happening, but arrive in plenty of time if you do want a seat.
