

GREAT FOOD – GREAT MUSIC

Sandy Point's newly named café, Paradise Point, is already getting organised to take on the busy holiday season. As of last Saturday 26th November, there will be Paella and tapas plus Marty Box and his music each and every Saturday evening. Of course the ever popular Happy Hour will also be continuing so it's a great opportunity to come down, maybe with a group of friends, and enjoy the food and the music, not to mention some cheap alcohol.

Jess, who runs the café, is certainly making the most of every opportunity to attract and keep customers. First and foremost, of course, the food has to be good, which it is. Sensibly, Jess has restricted herself to a small but varied menu for the restaurant which should have something to appeal to all members of the family.

Unlike some previous owners, Jess will be keeping the take-away side operating as well as the restaurant. No doubt this will have its challenges – especially at tea-time during January -when both sides will be going flat-chat. To this end, Jess is wanting to employ more staff. No doubt she is hoping to train new people prior to the big rush. This would be a great opportunity for anyone wanting to earn some extra money and also learn a new trade to add to their resume. The phone number for Paradise Point is 5684 1433. This can be used to either make a reservation or maybe apply for a job.
