

GREAT NEWS

This was the news we had all been hoping for - gone is the ring of steel, gone is the 25km limit for travel. Things are starting to feel that the sky is the limit. Of course, we all know that this is not so – but we can all dream, can't we?

With luck, it could mean the opening of the Community Centre but this is dependent on advice from the Council and being able to start all our activities once again. This could include, Indoor Bowls, All Things for All People, Tai-Chi, Pilates, and all the ones that I cannot remember.

This will hopefully mean that all the Holiday Home owners will start to come down and bring our town back to life after being so long under the shadow of Covid 19. I am sure that both the Café and the General Store will be happy about this. Which reminds me that when I was giving a wrap to Sue and Andy, I forgot to mention that their Landlord, Greg Buckland, was also all for the Defib. to be put up on the shop wall.

I think that I can safely say that everyone in the state of Victoria were over the moon with the Premier's statement on Sunday. This, we hope, will be the first of many new liftings of the restrictions. We will not know ourselves being able to travel wherever we want, whenever we want to.

I will be able to see my daughters, as will Di - apart from Leanne in Queensland. But I think that her son Scott and daughter Nicky are coming down to our place this coming weekend with possibly a couple of dogs to add to the mix. But we really cannot complain, as it has been so long since we have seen them or the dogs.

Once all the Borders are opened, then life can start to return to something close to normal.
