

## **SOMETHING NEEDS TO BE DONE**

We were told when our roads were sealed that in six months' time, they would be perfect. I do not think so – if anything they have got even worse. In many places there is just tar, no stones at all. This is particularly true where the garbage trucks and other heavy vehicles cut corners or just by their sheer weight, they remove what stones are still remaining and this will only become worse as the summer heats up

I think that we can all agree that the contractors did a very ordinary job. But somehow I do not think that Council will recall them, in the hope that they do a better job, if they did not do it right the first time we do not have much hope of an improvement on the second attempt.

Now on to brighter topics. The new Community Noticeboard is going to be on the track over to the beach. I think that most people assumed that this board belonged to the Surf Lifesaving Club, but by doing a bit of research it was discovered that the Foreshore Committee originally built it and they had no problem with it becoming the new Community Noticeboard. It will need a bit of a spruce up and maybe a coat of paint, but it should serve the purpose fine. Both the Community Centre and the Community Group are working together to make sure it is always up to date.

The second good news story comes from the Mini Golf. It seems that the new owners are the owners of the freehold of the Café, Mike, and Alison. I think that that news was the worse kept secret in Sandy Point. Anyway, they are planning on doing some renovations and re-opening the Mini Golf after Christmas.

Another good news story is that the Council has painted the interior of the Centre and they should be congratulated on their choice of contractor as he has done a great job and given the Centre the facelift it needed.
