

WHAT A DIFFERENCE A WEEK

MAKES

Everything has been happening so fast. The township has filled up with holiday makers. The Centre has finally opened, so we can recommence all our activities again. I am sure that, now restrictions have been eased, there will be plenty more weeks like this one.

Even The Surf School was able to start up a training session on the front beach, with plenty of kids waiting for their turn to get in the water with their boards. No doubt Nippers will soon be happening, come Boxing Day. Though, like with The Surf School group, they will all have to learn the new Covid 19 rules.

But it was amazing how quickly the Caravan Park filled up with tents and caravans. They only stayed for the weekend but that was enough to give the Caravan Park a reason to hope that it could happen again in the near future.

Indeed, with the easing of restrictions it could happen sooner rather than later. Holiday Homeowners can now come down whenever they want to. This will definitely be great news for the Café and the General Store who have been doing it very tough for the last few weeks. Hopefully, their trade will start to pick up from here on in and the Summer coming up soon.

I do not think Daniel Andrews could have timed it better, with the advent of Summer and the school holidays. But no doubt there will still be those who will complain that it should have been done sooner or not at all.

But I think that the best news is the Centre opening so that we can restart all our activities. This means that Indoor Bowls can recommence as can Pilates, All Things For All People on a Thursday afternoon from 3 until 5pm. Also, the Shade Sails over the playground have been replaced, thanks to the Council, and are all beautifully clean.
